As a teacher, I want to access learning management system (LMS) for uploading lectures so that students can easily download the lectures from LMS.

As a teacher, I want to take attendance by using academia so that I calculate the attendance easily.

As a teacher, I want to get access handling based on access restriction and permission in LMS so that I want to give access permission to the students and restrict the others.

As, a parent, I want to know the grade of student's academic outcomes so that I can guide the children to improve their ability of studying.

As, a parent, I want to discuss with teachers about their children condition so that I can help my children for their learning if they need.

As, a parent, I want to participate the events of the high school so that I want to know all the information of the high school.

As a student, I want to access learning management system for downloading lectures and assignments so that I can get the materials for studying very easily even if I am absent.

As a student, I want to participate the activities in school such as sports, literature seminar so that I can get the knowledge and experience and then playing sports can give a good health.

As a student, I want to obtain their current seminar schedule so that I want to attend every seminar.

As a librarian, I want to store and borrow books by computerization so that I can manage the books in the library easily.

As a librarian, I want to show up-to-date information and library trends so that I want the stakeholders in school to know all of the information of the library.

As an accountant, I want to pay the staff's salary by ATM Card so that the staff can easily withdraw money whenever they want.

As an accountant, I want to keep accounts and reports by computerization so that I can manage the accounts and reports easily.

As an admin, I want to keep the information of students, teachers and the staff by computerization so that I can manage all of their information very easily.

As an admin, I want to communicate with the teachers and the staff and students by mail I can contact the stakeholders of the school quickly.
